

INICIANDO ANDROID STUDIO 4.1

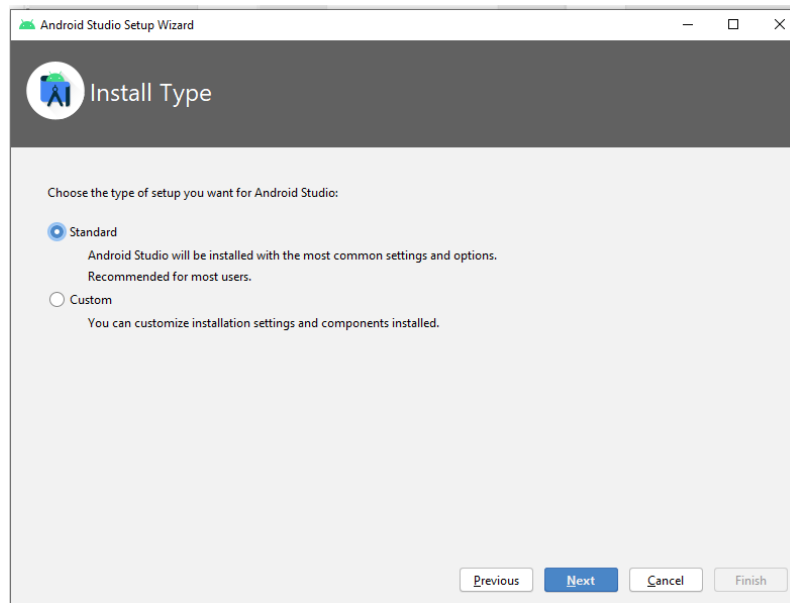

1. Al Iniciar Android studio por primera vez nos solicita si deseamos importar configuraciones. Dejamos así como está la selección y seleccionamos ok.

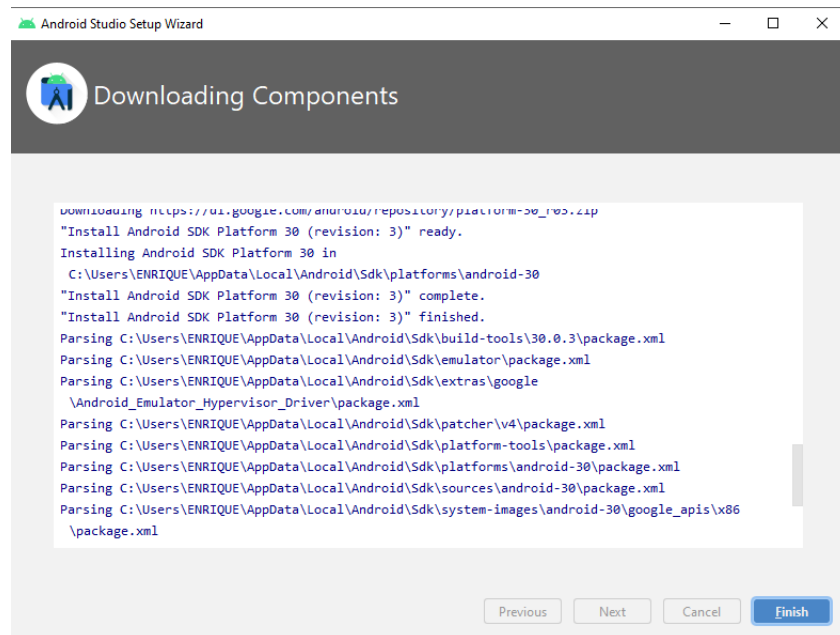

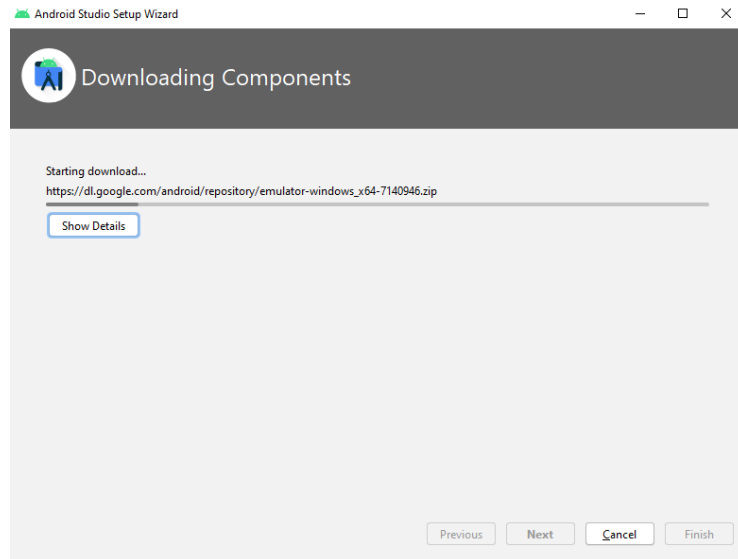

2. Seleccionamos Don't send.

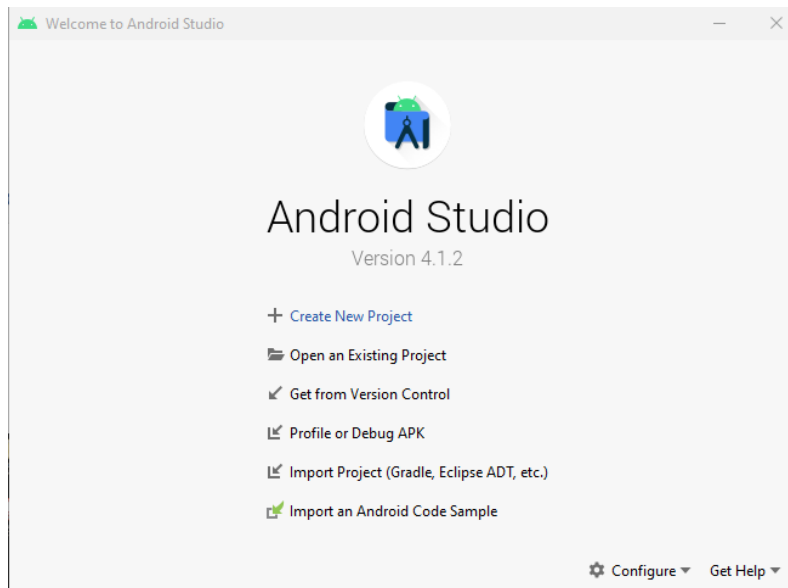

3. Seleccionamos Next.

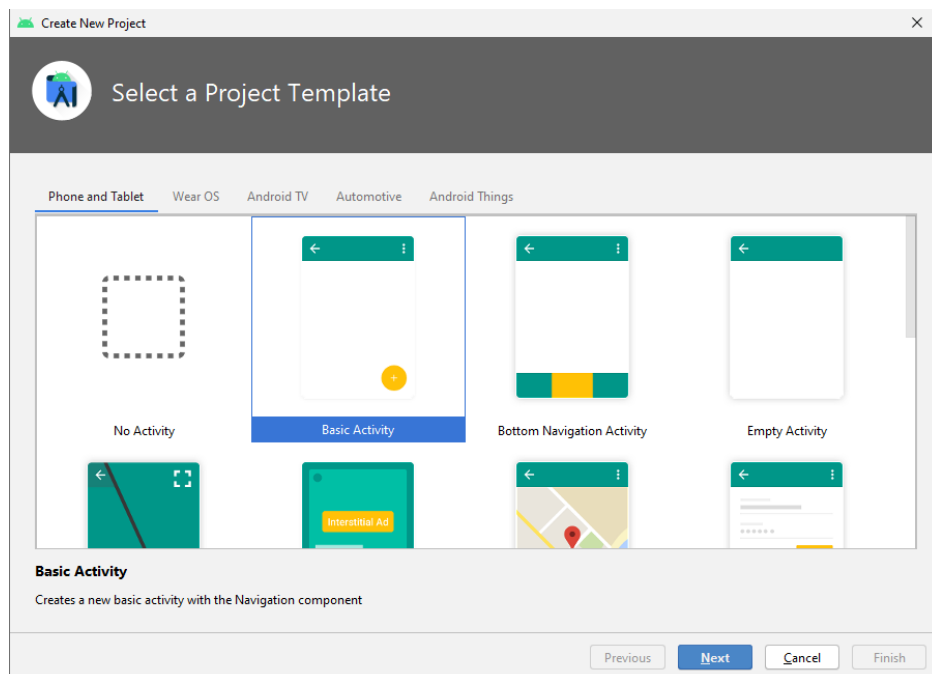

4. Seleccionamos Next

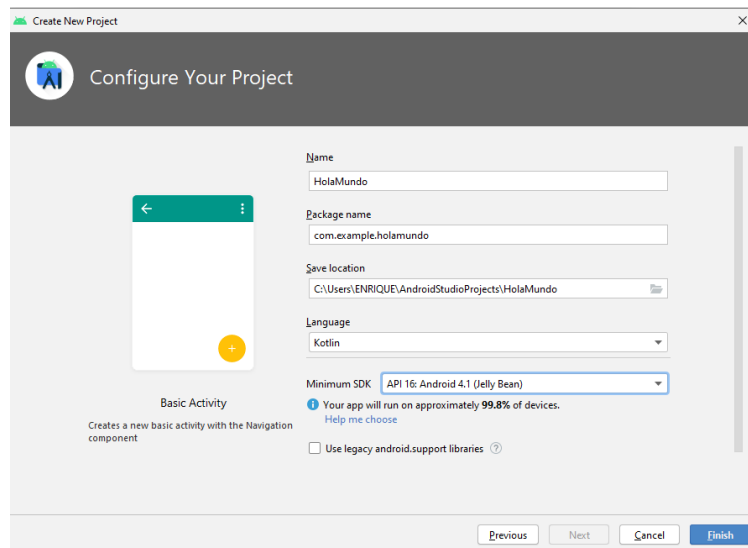

7. Seleccionamos Finish

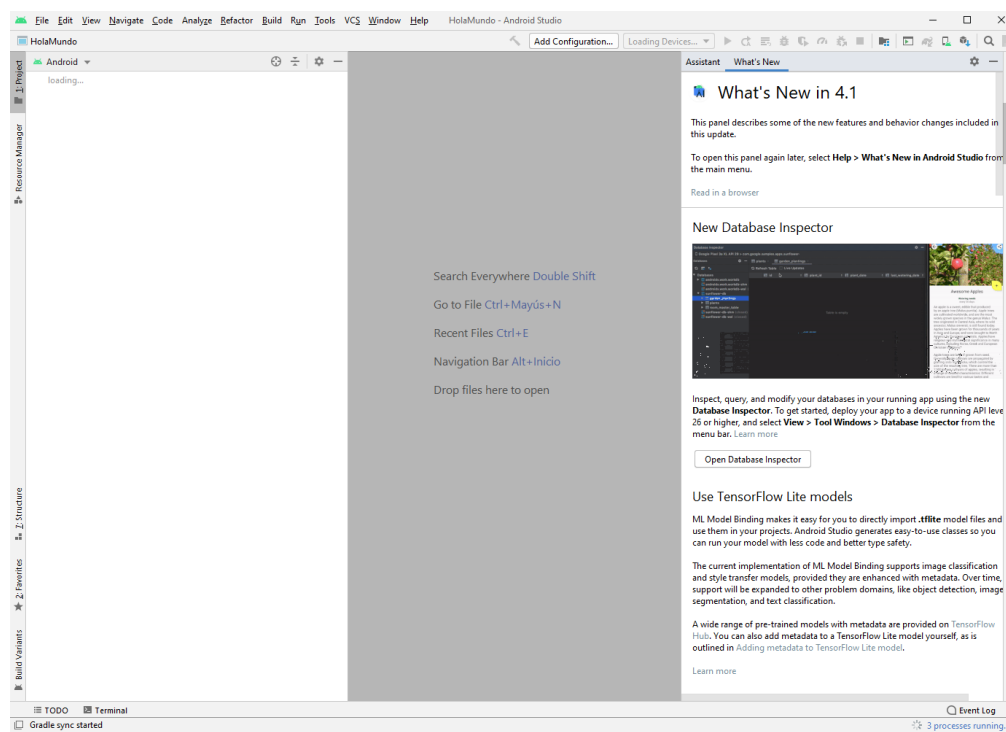

8. Selección amos Create New Project

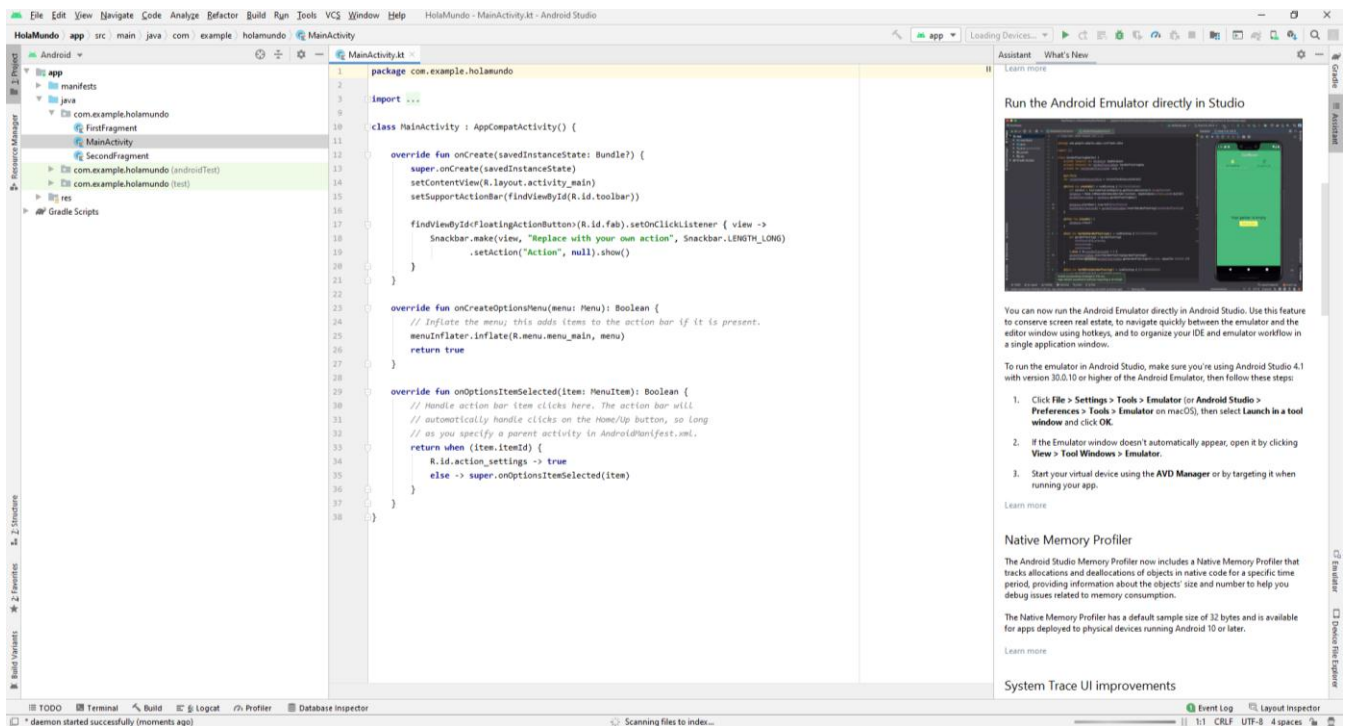

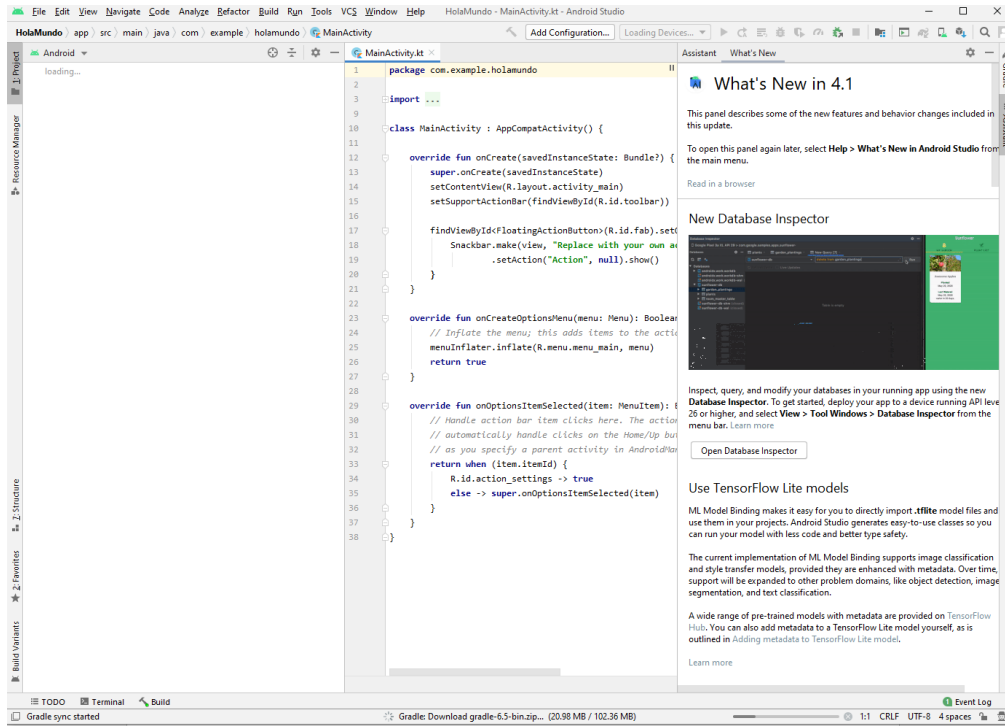

9. Para este ejemplo seleccionamos Basic Activity

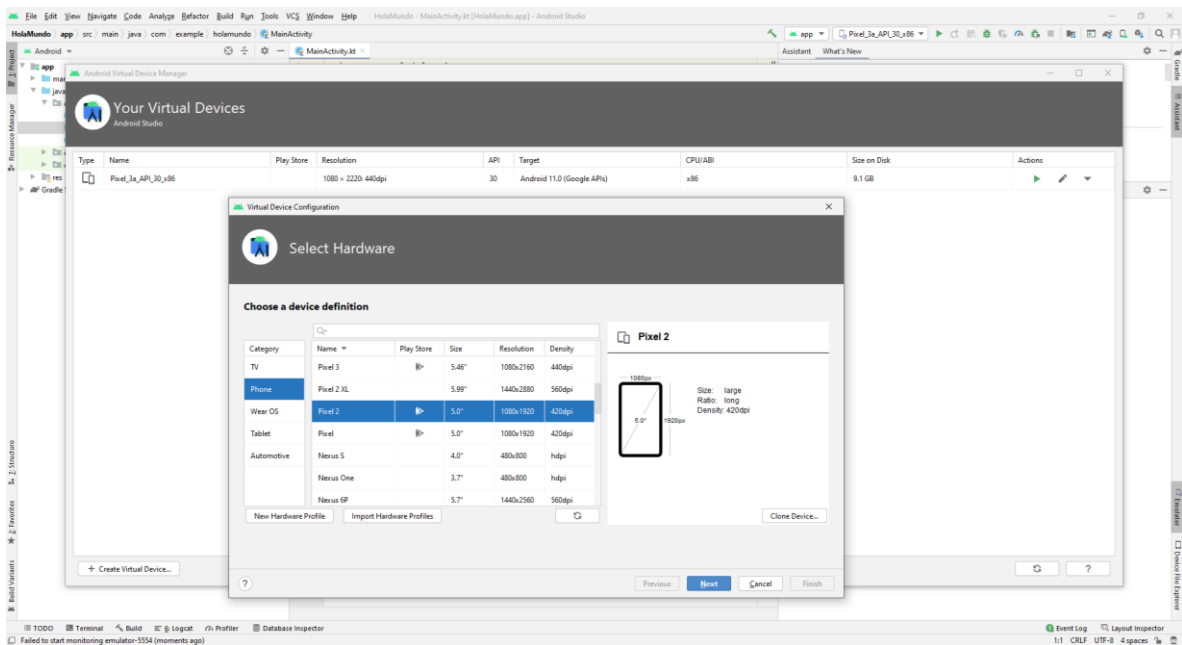

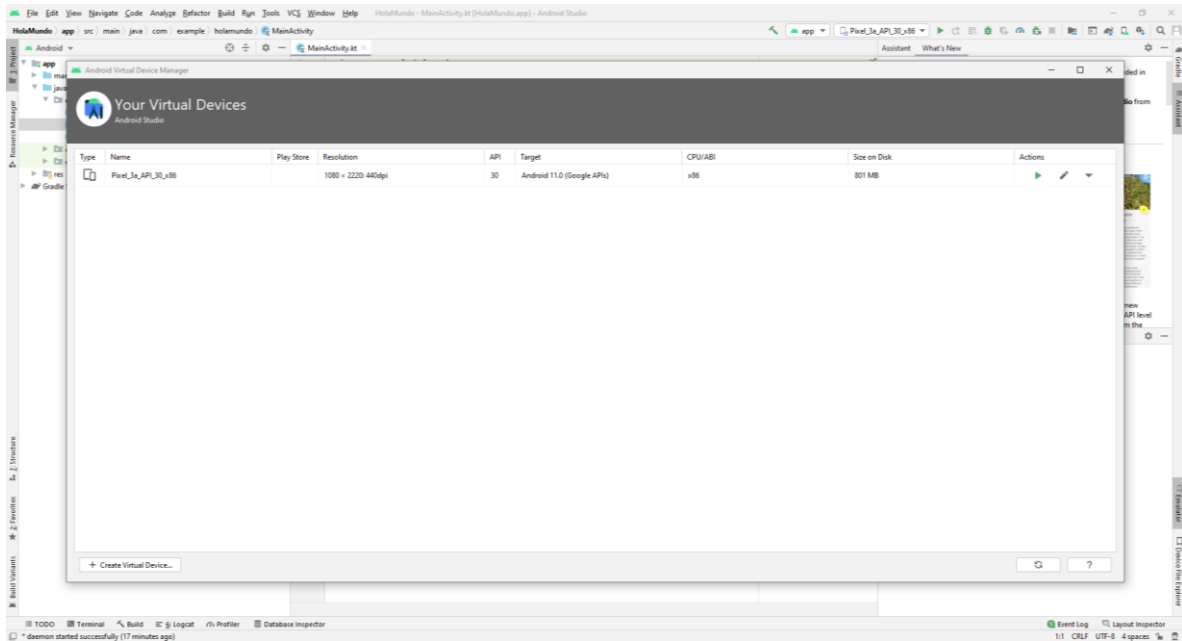

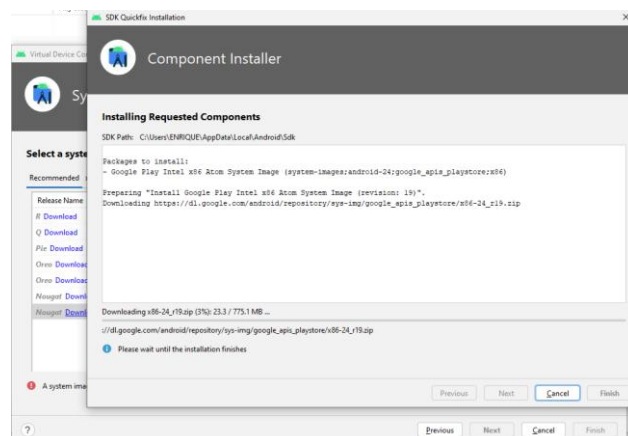

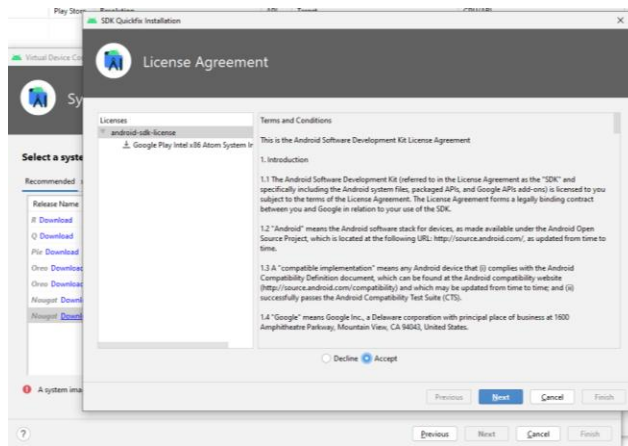

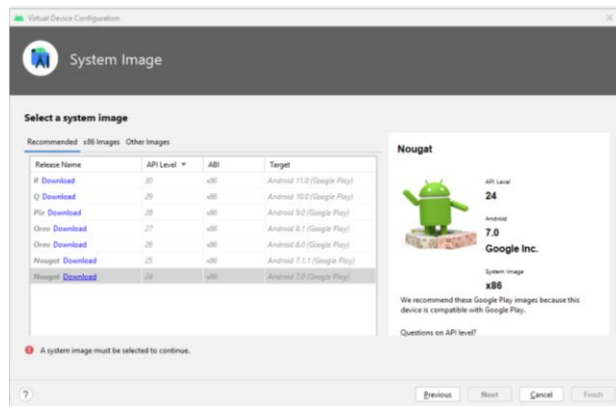

10. Requisitamos los datos del proyecto

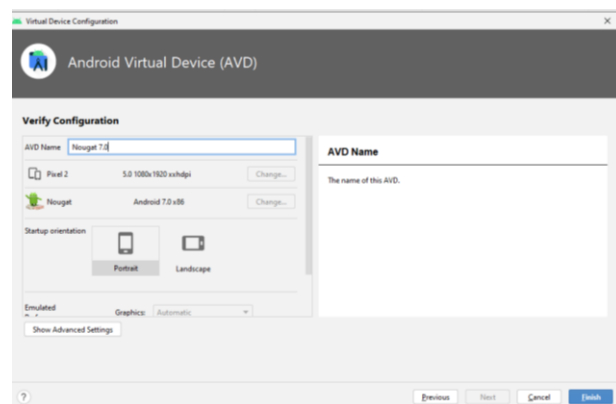

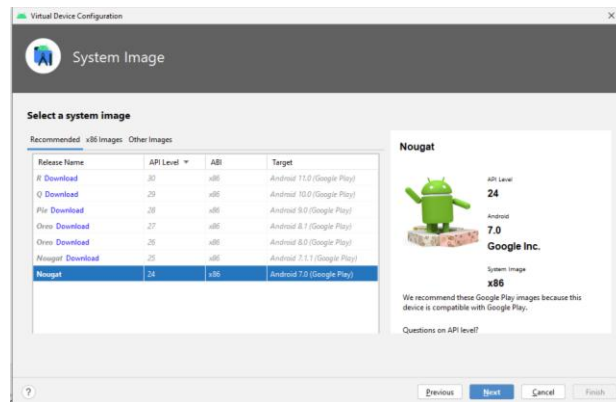

11. Una vez que entramos al proyecto por primera vez. Creamos un AVD (Android Virtual Manager)

12. Al terminar de Instalar un AVD, ejecutamos el proyecto.
